# PIANO FORTES.

J. BAUER & CO., AGENTS. WAREROOMS, 650 BROADWAY, NEW YORK, 99 Clark St. and Crosby's Opera House, Washington St., Chicago, Illinois.

Read the following commendatory letters from distinguished Artists. Wm. Knabe & Co .- Gentlemen:

Wm. Knabe & Co.—Gentlemen:

I have great pleasure in certifying that I have tried your Square Pianos and find them equal, if not superior, to any in this country. Among the great qualities which distinguish them, is the evenness of tone, the easy and agreeable touch and volume of tone. Wishing you all the success which you so highly deserve, I am, sirs, Y ars, very truly, S. THALBERG. Wm. Knabe & Co .- Gentlemen: Having had lately an opportunity to try and test your new scale Grand as well as Square Pianos, I cannot refrain, besides reiterating all I had occasion to say at a former period, from congratulating you on the important inprovements you have introduced in the manufacture of Pianos. Your instruments combine at the qualities which are required to make a Piano as perfect as possible, and fully deserve the great popularity they have gained all over the country.

Yours truly,

L. M. GOTTSCHALK.

Wm. Knabe & Co .- Gentlemen: I cannot but congratulate you upon the immense progress and improvements which you continually make on your Planes, which, in my opinion, rank among the very best in the country.

M. STRAKOSCH.

Wm. Knabe & Co .- Gentlemen: Wm. Knabe & Co.—Gentlemen: If Our Opera Troupe are at present using four of your justly celebrated Pianos, and as the exponent of the views and opinions of the various artists, permit me to say: I consider them as unsurpassed in brilliancy and excellence, and pre-eminent, without a rival in this country or in Europe. Their superior quality of tone, combining great depth and powerful volume, with a rich and peculiarly clear and even treble, together with magic elasticity of touch and action, render them superior to the other instruments, which rarely, if ever, combine those most essential requisites. Profoundly impressed with the many valuable qualities of these Pianos, I most cheerfully endorse the high and meritorious encomiums everywhere a genomiced upon them.

F. MUZIO,

New York, Dec. 124, 1864. Wm. Knabe & Co .- Gentlemen: I have carefully examined your new scale Grand and Square Piano Fortes, and I must say that they please me exceedingly, both with regard to touch and tone, and I can confidently recommend them as being equal to any in this country or Europe, and you have permission to make use of my name if of service to you. Yours, respectfully, GEC. W. MORGAN, Organist of Grace Church. Wm. Kuabe & Co.-Gentlemen:

It affords me great pleasure to testify to the great excellence of your Piano Fortes. (PATENTED, October 8, 1867.) Dodge & Barclay, MANUFACTURERS OF AND WHOLESALE DEALERS IN

Dodge's Perfect Plow.

Dodge's Ky. Stock Bell and Dcdge's Clothes Washer. Twenty years' practical experience in farming, and seven years experience in the manufacture of plows, has enabled the patentee to offer to dealers and to the farming community a se-

ries of plows for general purposes which he thinks are unequalled. They are certainly PER-FECT in their structure, well adapted to the wants of every farmer, and he does not hesitate to claim for his plow the FIRST PLACE among the best that are made. The leading character-istics to which he would call attention are as follows: First-Great strength and durability. Second-Very light draft. Third-Simplicity of construction and ease of repair. Fourth—Adaptation to every kind of soil—can use either steel or cast points: cleans itself under all circumstances, shedding even the stickiest and most putty like soil, with ease.

Fifth—It is in adjustible sections, either of which, when worn out, can be as easily replaced as the parts of a cast-iron plew; thereby saving the remainder, which would otherwise be thrown away. Indeed, the standard and trame work, the principal, and as it were the vital

first rate scraper or sweep, thus making three implements of one at a small additional cost.

Sixth—Superior material, workmanship and high polish; is symetrical, and of great artistic Seventh-Low price. Eighth-As a result of all the above, economy in labor (both of man and beast,) economy in the number of implements, thorough culture, and superior crops. The manufacturers warrant these plows to answer the description thus given, and if after a

parts of the plow, are so effectually protected by a movable land-lide mold board and point that

they never wear out; thus giving us, in a word, a LIVING PLOW. Also, by removing the old-board, a scraper or sweep attachment may be used, thereby converting the plow into a

fair trial they fail to do so, the purchase money will be refunded on the return of the plows to Dodge's Kentucky Bells! Have been made in this city and sold in all the principal cities in the Union for nearly twenty years; and although their great reputation has led to the manufacture of many imitations, no one has ever succeeded in equaling them in strength, durability, clearness of tone, and fullness of sound. Be sure that the bells you buy are labelled "J. Geo. Dodge's Kentucky Bell.

The Dodge Washer.

(Patented July 16, 1867.) is warranted superior to any that is made. Our standing proposition is that, when on a fair trial it falls to do twice as much washing as any other mahine, in the same length of time, and with less wear of the fabric and labor by the operator, we will give one of our machines to the owner of its successful competitor.
